

Deltek Costpoint Enterprise Reporting

Intelligent, Self Service Reporting for Deltek Costpoint – Without IT Assistance

Key Benefits

- Intuitive Web Interface
- Simplified Report Authoring
- Exception-based Reports and Notifications
- Role-based, Self-service Portals, now with HR and Payroll Integration

Deltek Costpoint Enterprise Reporting, formerly known as Deltek Performance Management, enables everyone in your organization to access the information critical to your business from your Deltek Costpoint system – without any help from the IT department. With enhanced functionality, an easy to use interface, web-based access and out of the box features, Deltek Costpoint Enterprise Reporting helps you more effectively manage every aspect of your project-focused business.

Enhanced, Web-based Solution

Deltek Costpoint Enterprise Reporting offers an easy way for everyone in your organization to get the information they want, when they want it and in the format they need. Users login via the Internet for easy access to run reports, review dashboards and drill down into increasing levels of detail.

Reports can be authored online by users across the organization with minimal training and no programming skills are required. Performance Management also extends the potential for advanced reporting and analysis into such areas as analytics, scorecards and alert notifications. Users can analyze data, review key performance indicators and be alerted to items that need their focus in a single self-service portal.

Dozens of Reports – Out of the Box

A new, extensive library of production-ready reports can be used out of the box or modified to meet your company's needs. The reports are representative of the wide range of advanced report writing capabilities offered, including drill through functionality, advanced prompting, multiple queries and graphing.

Make the Move from Impromptu

Impromptu users will enjoy the self-service and ad hoc and advanced reporting capabilities of Deltek Costpoint Enterprise Reporting (CER) which are based on the foundations of the Cognos 8 Business Intelligence suite. The gains in overall reporting productivity and quality, the reduction of IT administration time and the value of Deltek's pre-configured reports and integration will provide immediate value to your organization. And, to make the transition easier, we've created a standard service package for migrating from Impromptu.

Role-Based Reporting

- **Project Reports** enable project managers to quickly understand the status of their projects, all with drill through capability.
- **Financial Reports** allow C-Level Executives to view P&L and Cash Flow.

- **Exception Reports** like Zero Billing Rate reports can identify errors before the invoice is sent to your customer.
- **Incurred Cost Submission** schedules aid with DCAA compliance.
- **HR and Payroll Reports** including EEO-1, VETS 100, Employee Change, Employee attrition and many more.
- **Control Reports** document your settings for Sarbanes-Oxley compliance.
- **Procurement-related Reports** include Buyer Requisition Worksheet and Purchase Order.
- **Invoice Formats and Pre-billing Reports** help to streamline your billing process.

Additionally, users have access to reports from the core Costpoint modules and Time & Expense in one place:

- **Time & Expense Charge Activity** provides project managers with up-to-date information on charges by their project staff.
- **Expense Analysis** is a way to analyze expense report activity and exceptions for non-billable, unallowable and over-ceiling amounts.
- **Labor Summary** with Posted and Unposted Hours provide an up-to-the-minute critical view of the impact of labor on the project.

Benefits

IT departments readily embrace the faster, easier set-up, implementation and on-going maintenance. Some of the enhancements include:

- **Built-in Best Practices:** Examples include pre-configured security and role-based access, automatic prompting for project, account or organization level and accessing user-defined fields in Costpoint.
- **Framework Manager:** With the addition of our Framework Manager model, the complex code is now “behind the scenes” and makes upgrades and changes easier to manage.
- **Low Total Cost of Ownership (TCO):** Deltek Costpoint Enterprise Reporting is ready to go out of the box, significantly reducing implementation time. You will save money on consulting fees and also reap the benefits of the solution faster.
- **Reduced Reporting Backlog in IT:** Users can easily generate and access reports – freeing up IT resources for more strategic tasks.
- **Reduced IT Costs:** By standardizing all performance-related information on a single, integrated platform, you reduce IT operating costs and skills requirements.
