

RIOS CLEMENTE HALE STUDIOS

www.rchstudios.com

On behalf of Rios Clemente Hale Studios, I would like to take this opportunity for documenting **MY painful experiences and challenges** with the Ajera software. Truly, this represents that Deltek Vision is the number ONE leading provider of management software. In regards to this transition, ITB has made this conversion like magic! The guidance and the feeling of **"you're not alone"** during this process made me feel confident that this is the right move for RCHS.
