

Vision Essentials Plus

As a growing, small-to-mid-sized Professional Services firm, you can still have it all.

Vision Essentials Plus includes all the benefits of Vision Essentials, CRM, and Planning in one complete package giving your growing firm a solution that connects the entire organization, on a single, secure system which is easy to buy and simple to own.

Featuring all the assets of Vision Essentials, Vision Essentials Plus also includes:

Resource Planning: Automate resource management, scheduling, budgeting and forecasting for end-to-end, real-time visibility into your resource capacity and utilization. As the first fully-integrated resource management solution, Deltek's Resource Planner brings together all the capabilities you need to develop and track resources, cost and project planning.

Customer Relationship Management (CRM): Empower communication and collaboration on a truly enterprise level for more actionable, targeted attention to prospect and client needs and opportunities. Track your opportunities, track your proposals and estimates, and when you close the deal all of that information flows right into the creation of the project - seamlessly and effortlessly. True project based CRM. With Vision Essential Plus' centralized, web-based system, You can effectively and efficiently track key client information, manage your pipeline, develop campaigns and even synchronize interaction with your most critical clients—resulting in more business wins and increased customer satisfaction
